

## 혁신의 숲

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>Strengths</b></p> <ul style="list-style-type: none"> <li>- Diversity of contents (Newsletter, Analytic/Research report of startup growth)</li> <li>- Clear, professional branding (design &amp; message)</li> <li>- Wide range of analytical metrics (maybe some of them are kind of irrelevant? Not sure)</li> <li>- AI powered analysis of startups <ul style="list-style-type: none"> <li>- Creates summary of profile based on “기업의 홈페이지, 카테고리, 비즈니스 키워드, 기업뉴스 등의 데이터”</li> <li>- Overall analysis (Only available for pro)</li> </ul> </li> <li>- Comparison function</li> </ul> | <p><b>Weaknesses</b></p> <ul style="list-style-type: none"> <li>- Lack of personalization</li> <li>- No UI for guests; Only designed for investors and startups</li> <li>- No function that tracks the progress of, for example, the mentoring process or the results</li> <li>- No connection/matching process</li> <li>- Pricing: 100,000 won minimum</li> </ul>                                                                                                                                                                                |
| <p><b>Opportunities created for us</b></p> <ul style="list-style-type: none"> <li>- The direct connection between startups and investors, WITH RESPECT TO MENTORING, is missing</li> <li>- Phone UI is not clear &amp; the quality is very different with the desktop version</li> <li>- The 등록 form is not detailed enough, and there are not that many HASHTAGS for each profile <ul style="list-style-type: none"> <li>- The filter is lowk detailed tho</li> </ul> </li> <li>- Categories are unavailable in some company profiles for free plan users that</li> </ul>                  | <p><b>Threats posed against us</b></p> <ul style="list-style-type: none"> <li>- Same concept of filters (+ They have a 지역 filter to provide a regional list of startups)</li> <li>- Offers a list of programs viable for startups to grow</li> <li>- They have a connection with the government and organizations</li> <li>- On top of startups, it also provides list of potential investors <ul style="list-style-type: none"> <li>- Two way between startups and investors → Probably benefits our target clients more?</li> </ul> </li> </ul> |

잘 모르는거:

- 6 types of filters (idk if they are an “appropriate” way of sorting companies)
  - 기업조회수(최근 7일)
  - 신규등록
  - 최근투자유치일
  - 최종투자단계
  - 누적투자금액
  - 매출액
- I can't view the functions available for pro, so I don't know their quality of content

- They have a 광고 feature after 검토, and I'm not sure if this is good or not
